# About Our School

*Whiz English North Sulawesi was established in 2018 in Bitung, a port city in North Sulawesi. Our school is dedicated to reaching the unreached students and providing them with the best quality of English school that can only be accessed in a bigger city.*

*Currently, we have more than 200 students and alumnae who came to our school mostly with zero English. We are proud to say that after studying at our school, every student makes significant progress. Those who study longer could obviously reach an amazing level of English.*

About Us

## What we do

---
